It's been a long time in the planning but despite the very hot sunshine last week and several days of drizzly rain we have nearly finished the Sensory Garden. Only a few little additions needed...

The Committee have given a lot of time and muscle to make this project look so fantastic but we have had some help along the way and there are some people we must thank.

So a huge and heartfelt, thank you goes to;

Conrad, Zach and Sinead Yates (C.J.Yates Construction) for giving their time and energy and some helpful tools to make our job a little easier

David Willis (Keyline Builders Merchants) for cutting to size and supplying the plastic pipes for us to use as planters

Asa Yaxley for removing the tree stump that stood in the way of our central path

Phil (St Annes Haulage) for a ton of slate delivered to us all for free

UK Electrical for the Cable drums that we made into tables

Naomi Seymour and Sofie Warner for their horticultural knowledge 😊

The garden is a space for all children to enjoy, please be gentle with it but let them be inquisitive, pick a strawberry if its ripe, smell the herbs, listen to the water and the chimes and feel the different textures under foot.

🌸 All we ask is that it is treated with respect and love so that 🌸
it continues to flourish for everyone to enjoy...

A huge thank you to Callie, Isabel and Arthur Westwood (and their parents) for donating £67.50 to The Friends of St Michaels Fund.

They all completed a 20.1 mile bike ride over the weekend for Charity and have kindly given half of their donations to us. Thank you 😊

And don't forget...

We have received a kind donation from Chelmsford City Racecourse which we have made into a prize for you 😊
